EUROTOX

Archives of Toxicology

Official Organ of EUROTOX

Edited on behalf of the Deutsche Gesellschaft für Experimentelle und Klinische Pharmakologie und Toxikologie

Founded in 1930 by H. Wieland with the backing of the Deutsche Pharmakologische Gesellschaft. Vls 1-14 published under the title "Sammlung von Vergiftungsfällen". Vols 15-27 published under the title "Archiv für Toxikologie" and edited as follows: Vols 1-4 by H. Fühner, Vols 5-15/2 by B. Behrens, Vols 15/3-16/1 by B. Behrens and K. Wagner, Vols 16/2-22 incl. by B. Behrens, H. Oettel and K. Wagner, Vols 23-28 incl. by D. Henschler, Vols 29-36 incl. by W.D. Erdmann, Vols 37-55/2 by H. Frohberg, as of Vol 55/3 by H. M. Bolt.
Publisher: E. C. W. Vogel, Leipzig-Berlin; from Vol 11 (1941) Springer, Berlin.

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis) that it is not under consideration for publication elsewhere that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond that limitations stipulated under Section 107 or 108 of the U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0340-5761, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

The Canada Institute for Scientific and Technical Information (CISTI) provides a comprehensive, world-wide document delivery service for all Springer-Verlag journals. For more information, or to place an order for a copyright-cleared Springer-Verlag document, please contact Client Assistant, Document Delivery, Canada Institute for Scientific and Technical Information, Ottawa K1A 0S2, Canada (Tel: 613-993-9251; Fax 613-952-8243; E-mail: cisti.docdel@nrc.ca).

Table of Contents of volume 72

No. 1 (pp 1–62) published December 1997
No. 2 (pp 63–124) published January 1998
No. 3 (pp 125–186) published February 1998
No. 4 (pp 187–250) published March 1998
No. 5 (pp 251–318) published April 1998
No. 6 (pp 319–386) published May 1998
No. 7 (pp 387–458) published July 1998
No. 8 (pp 459–544) published August 1998
No. 9 (pp 545–608) published September 1998
No. 10 (pp 609–680) published October 1998
No. 11 (pp 681–750) published November 1998
No. 12 (pp 751–816) published December 1998

Abado-Becognée K, Mobio TA, Ennamany R, Fleurat-Lessard F, Shier WT, Badria F, Creppy EE: Cytotoxicity of fumonisin B_1: implication of lipid peroxidation and inhibition of protein and DNA syntheses 233
